INDIAN DAIRYMAN

Indian Dairyman is the mouthpiece of Indian Dairy Industry. The lead articles of the journal are written by experts on various fields of Dairy Industry like technology, engineering, cattle breeding, nutrition, animal health, feed and fodder, milk production and processing. It also carries articles on finance, marketing, management, legislation, development programmes and policies, etc. written by specialists. Indian Dairyman publishes from time-to-time special issues on Quality, Milk and Milk Products, WTO, etc. A special issue of the journal, covering the proceedings, papers presented by the specialists in their respective fields as well as recommendations emerging out of each technical sessions of the Annual Dairy Conference and Seminars, etc., is published each year. The contents of the journal also include market information, scientific and technical know-how, health related knowledge, news from India and abroad, upcoming events and the market prices of dairy products of different brands. Reviews on some of the important books published in India and abroad, appear from time-to-time, in the journal for the benefit of our readers.

INDIAN JOURNAL OF DAIRY SCIENCE

This is a scientific and technical journal imparting scientific knowhow and acts as a tool for disseminating research findings. The journal is published bi-monthly covering research articles, abstracts, reviews, short communications and other cognate matters pertaining to the industry.

READERSHIP PROFILE

Indian Dairyman & IJDS are circulated in the various parts of India and abroad and read by most members of the dairy community. It is being widely referred to by the Chief Executives in the Cooperatives, Federations, private and multinational organisations as well as dairy organisations abroad. Besides, the journals are subscribed by several libraries and educational institutions in India and abroad. The readership of the journals, subscribed by various institutions as well as the libraries, is growing by leaps and bounds!
